--------------------------------------	------------------	--	----------------------	--	--------------------------	--

Column 1: Insurance Amount

This is the amount of the Owner's Policy, usually the sales price. Round up to the next \$10,000 to determine the rate.

Column 2: Standard Owner's Policy

This rate applies to certain residential resales if 1) the property or Buyers does not qualify for the America First coverage, 2) the Customer does not want the America First Protection Policy, or 3) the Customer does not want to pay the additional premium for the America First Homeowner's Policy. A waiver of America First coverage must be signed, acknowledging that the Buyer is aware of the risks that are not covered under the Standard Owner's Policy.

Column 3: America First Homeowner's Protection Policy

This rate applies to an expanded coverage Owner's Policy, which includes coverage for certain future risks. It is the best coverage available, and the default policy as specified in the California Association of Realtors' purchase contract. For more detailed information, contact your title representative or escrow officer.

Column 4: ALTA Concurrent

This rate is based on the loan amount and applies when an Extended Loan Policy is issued concurrently with an America First or Standard Owner's Policy. Most institutional lenders require an ALTA Loan Policy.

Column 5: ALTA Loan Policy Issued As a Standalone Policy

This rate is based on the loan amount when a basic ALTA Loan Policy is issued without the simultaneous issue of an Owner's Policy.

Columns 6 & 7: Refinance Loan

This rate is available for refinances of improved one-to-four family residential properties only. The rate is not available for construction loans (including remodeling and rehabilitation) or purchase money/ acquisition loans. Single-loan policies are priced in the table.
